

# automatic drain

Drain bottle for collection of condensate

All JUN-AIR compressors are supplied as standard with a manually operated valve for drainage of condensate from the air receiver. However, the compressors are also available with automatic drain.

The automatic drain is available with a drain bottle for collection of condensate from the air receiver and other filters fitted with automatic drains connected to the compressor.

Automatic drain - series 590

| Part no. | Description                                                                       |
|----------|-----------------------------------------------------------------------------------|
| 4797100  | Drain set, 120V with 1 litre drain bottle for 1.5-25 litre receivers - Series 590 |
| 4797600  | Drain set, 230V with 1 litre drain bottle for 1.5-25 litre receivers - Series 590 |
| 4797700  | Drain set, 120V with 1 litre drain bottle for 40-150 litre receivers - Series 590 |
| 4797800  | Drain set, 230V with 1 litre drain bottle for 40-50 litre receivers - Series 590  |
| 4797875  | Drain set, 230V with 1 litre drain bottle for 150 litre receivers - Series 590    |
| 4798000  | Autodrain - TEC II, 230V for 1.5-25 litre receivers                               |
| 4798100  | Autodrain - Series 590, 230V for 40-50 litre receivers                            |
| 4798500  | Autodrain complete, 12V DC                                                        |
| 4798600  | Autodrain complete, 24V DC                                                        |
| 4799000  | Autodrain - Series 590, 120V for 1.5-25 litre receivers                           |
| 4799100  | Autodrain - Series 590, 120V for 40-150 litre receivers                           |
| 4799201  | Drain set, 120V with 1 litre drain bottle for 1.5-25 litre receivers - Series 520 |
| 4799206  | Drain set, 230V with 1 litre drain bottle for 1.5-25 litre receivers - Series 520 |
| 4799210  | Drain set, 120V with 1 litre drain bottle for 40-150 litre receivers - Series 520 |
| 4799211  | Drain set, 230V with 1 litre drain bottle for 40-50 litre receivers - Series 520  |
| 4799250  | Autodrain - Series 520, 230V for 1.5-25 litre receivers                           |
| 4799251  | Autodrain - Series 520, 120V for 1.5-25 litre receivers                           |
| 4799255  | Autodrain - Series 520, 230V for 40-150 litre receivers                           |
| 4799256  | Autodrain - Series 520, 120V for 40-150 litre receivers                           |
| 4799300  | Timer for autodrain - Series 590                                                  |
| 4799500  | Autodrain - Series 590, 220-240V                                                  |
| 4799600  | Autodrain - Series 590, 120V                                                      |
| 4799700  | Autodrain - Series 520, 220-240V                                                  |
| 4799800  | Autodrain - Series 520, 120V                                                      |
| 5615000  | Drain bottle, 1 litre                                                             |
